1. **No Advice**

Nothing on this website, in our documentation, UI, APIs, social channels, or communications constitutes investment, legal, accounting, or tax advice. You should conduct your own research and consult independent professional advisers.

2. **Non-Custodial Interface**

Storm Trade is a user interface to decentralized smart contracts deployed on the TON blockchain. We do not custody user funds, do not execute trades on your behalf, and do not control user private keys. You are solely responsible for safeguarding your wallet and seed phrase.

3. **Eligibility & Restricted Use**

You may use the interface only if it is lawful in your jurisdiction and you are **at least 18 years old**. Access is prohibited to any person who is a **U.S. Person** or is located in, a resident of, citizen of, incorporated in, or has a principal place of business in the United States of America. Access is also prohibited where use of decentralized derivatives or related services is restricted by applicable law or sanctions. You are responsible for determining whether your use complies with laws and regulations applicable to you.

4. **Market, Leverage & Liquidation Risks**

Perpetual futures and digital assets are highly volatile. Leverage can magnify losses, including a **total loss of deposited assets**. Funding rates, slippage, spreads, oracle behavior, and network congestion may adversely affect outcomes. Past performance is not indicative of future results.

5. **Protocol, Smart-Contract & Network Risks**

Interactions with smart contracts, blockchains, and RPC/infra providers involve risks, including bugs, exploits, forks, MEV, downtime, fee spikes, chain reorganizations, or censorship. Transactions are generally **irreversible**. You accept these risks by using the interface.

6. **No Warranties; “As-Is”**

The website, dApp, and related materials are provided **“as is” and “as available”** without warranties of any kind (express or implied), including merchantability, fitness for a particular purpose, or non-infringement.

7. **Limitation of Liability**

To the maximum extent permitted by law, Storm Trade and its contributors shall not be liable for any indirect, incidental, special, consequential, exemplary, or punitive damages, or any loss of profits, revenue, data, or use, arising out of or in connection with your use of the interface or underlying protocols.

8. **Taxes & Reporting**

You are solely responsible for determining and fulfilling any tax, reporting, or regulatory obligations that arise from your activities.

9. **Third-Party Services & Links**

The interface may rely on or link to third-party services (e.g., wallets, RPC nodes, bridges, block explorers, analytics). These are operated by independent providers with their own terms and privacy policies. We do not control and are not responsible for their content or availability.

10. **On-Chain Transparency & Privacy**

Transactions on TON are public and may be analyzed by anyone. Do not share private keys or sensitive information. Communications with the interface or third-party providers may expose metadata (e.g., IP address) necessary for operation and security.

11. **Governing Law**

This disclaimer is governed by the laws of the **Republic of Seychelles**, without regard to conflict-of-law rules. Disputes should first be raised to **Telegram bot @storm_support_bot** for informal resolution.
